GAS CHARGRILL

Grill range made of AISI 304 stainless steel, 20/10 mm thickness top. Cooking griddle made of enamelled cast iron with special nanotechnology surface treatment for a better fats sliding, delivered with stainless steel splash guards and cleaning brush. Burner with pilot light, thermocouple and piezoelectric ignition. The cooking grill is heated by radiation from the metal profiles heated by the burner.

Gas power < 35 kw	Yes	*Power supply*	Gas
Worktop thickness	2 mm		

Functional features

- Grill suitable for cooking meat, fish and vegetables for the most discerning palates thanks to the combination of radiating and contact cooking.
- n. 1 burner with adjustable power from 6 to 12.5 kW.
- Specific output per useful surface dm² 549 W.
- Grill dimensions 67x34 cm.
- Cooking grills made in iron with a nanotechnology surface treatment which improves run-off of fats and grease by up to 8% compared to standard treatments.
- Cooking grids are made in cast iron with adjustable gradient on 2 levels, they are reversible with two different sections.
- The grill is heated by radiation from metal profiles heated by the burner.
- Cooking grid, burner, metal profiles and splash guard are all fully removable.
- Pre-set appliance for installation on under compartment, support surface; with specific accessories on bridge solution and cantilever on beam.

Constructional features

- Work top made in AISI 304 stainless steel, 20/10 thickness with Scotch Brite finish.
- Structure and control console made in AISI 304 stainless steel with Scotch-Brite finish.
- Side-by-side top juxtaposition very rigid and accurate guaranteeing max quality and hygiene.
- Good thermal insulation on the front of the appliance for a greater comfort of the operator.
- Splash guard on three sides in AISI 304 stainless steel, with concave geometry to contain splashes and heat.
- Pull-out drawer, to the entire depth of the grid, made of stainless steel, for collecting cooking residues, positioned under each individual burner. Flame zone protected against falling cooking fats; easily removable without tools. Pull-out drawer capacity: 1 lt.
- Double flame stainless steel burner.
- Piezoelectric ignition with button guard, frontal visibility of the flames, possibility of manual ignition of the pilot light from the front panel.
- Metal ergonomic knobs with rubber protection against water infiltration.
- Radiused rear splashback on the worktop h = 4 cm, with built-in chimney for heat exhaust, removable enamelled cast iron guard.
- Access to all components through front compartment or control console.

Safety equipment and approvals

- Security control on gas operation ensured by thermostatic valve, pilot light and thermocouple.
- CE approvals in respect of all directives and regulations.
- Approval to European Standard EN 1672-2 Hygienic Design.
- The product conforms to EC 1935/2004 Regulation and 21/03/1973 Rulemaking (Materials and Objects that are destined to come into Contact with Aliments).
- IPX5 protection rating.

Standard equipment

- Brush for cleaning.

Optionals and Accessories

- Serving shelf for condiments and raw or cooked foods; grill lift accessory for adjusting the inclination.
