### Functional features

- Electric chip scuttle made of AISI 304 stainless steel.
- Heating by infrared lamp, powered 1 kw, 750°C.
- Well dimensions: 305 x 510 mm, useful to GN 1/1 containers max high 160 mm.
- Loading capacity: max 4 kg (potato chips).
- Energy consumption optimized by a power regulator.
- High performances and efficiency in relation to the working power.

### Constructional features

- Work top made in AISI 304 stainless steel, 30/10 thickness, with Scotch Brite finish with condensation collection recess.
- Structure and control console made in AISI 304 stainless steel with Scotch-Brite finish.
- Side-by-side top juxtaposition very rigid and accurate guaranteeing max quality and hygiene.
- Pressed well integrated to the top, sealed, satin gloss finish and rounded connection edges.
- Metal ergonomic knobs with rubber protection against water infiltration.
- Rubber protection under the knobs against water infiltration.
- Access to all components through front compartment and control console.

### Safety equipment and approvals

- The appliance conforms to the Appliances Directive also in case of water lack.
- CE approvals in respect of all directives and regulations.
- Approval to European Standard EN 1672-2 Hygienic Design.
- IPX5 protection rating.
- The product conforms to EC 1935/2004 Regulation and 21/03/1973 Rulemaking (Materials and Objects that are destined to come into Contact with Aliments).

### Standard equipment

- Delivered with a false bottom for oil dripping.

### Technical Data

Working voltage	230V 1N~ / 50 ÷ 60Hz	Net Weight	20 kg
Gross Weight	25 kg	Electric Power	1 kW
Dimensions	40x92x25 cm	Packing	47x102x68 cm
