

TABLE WITH REAR SPLASHBACK RIGHT SCRAP HOLE 120 CM

AISI 304 stainless steel top 54 mm h with satin finish 12/10 mm thickness. Sound deadening waterproof panel underneath. Worktop version with rear splashback, integral with the worktop itself, 8,5 cm high. The exceptionally sturdy structure of the work table guarantees suitability for loads up to 150 kg/mq max (uniformly distributed). Scrapping hole, positioned on the right, with a diameter of 24 cm, finished with a stainless steel ring attached to the work top by means of a continuously welded rim.

Functional features

- The exceptionally sturdy structure of the work table guarantees suitability for loads not exceeding 150 kg/mq (uniformly distributed).
- The special support-leg fitting system allows placement flush against the wall, even when it is not at a right angle to flooring (distance between leg and wall 43 mm).
- Adjustable feet in AISI 304 stainless steel for levelling by means of the thermosetting plastic sole.
- Ergonomics, offering a standard height of 90 cm from the floor.
- Hygiene ensured by the materials used and by the totally "closed" structure of the worktop. Ease in cleaning thanks to features like the designed tubing legs.

Constructional features

- AISI 304 stainless steel top 54 mm h with satin finish 12/10 mm thickness. Sound deadening waterproof panel underneath.
- Worktop version with rear splashback, integral with the worktop itself, 8,5 cm high.
- Nr. 4 legs, built in satin-finish AISI 304 stainless steel tubing with a 50 mm circular section.
- Scrapping hole, positioned on the right side to the working top, with a diameter of 24 cm, finished with a stainless steel ring attached to the work top by means of a continuously welded rim. Especially convenient for food sorting and handling operations because of the cantilevered work top (40 cm) for the refuse bin positioning.

Safety equipment and approvals

- The product conforms to EC 1935/2004 Regulation and 21/03/1973 Rulemaking (Materials and Objects that are destined to come into Contact with Aliments).

Optional

- The work-table with hole may be completed with the following accessories: general drawer, a drawer capacity GN 1/1, drawer unit composed by 4 drawers GN 1/1, lower shelf and mobile refuse bin with lid.
