

DESCALER CAL-PEARLS - 50 SACHETS

CAL-PEARLS: acid descaler in microgranules for the automatic washing and cleaning of Angelo Po professional ovens. It reduces the surface tension of the solution, makes it soluble and removes the accumulation of mineral hardness from the treated surfaces, facilitating rapid drying. The package includes: 50 sachets. For use on ovens: ACT.O (AT... models).

Functional features

- Acid descaler in microgranules for the automatic washing and cleaning of Angelo Po professional ovens. It reduces the surface tension of the solution, makes it soluble and removes the accumulation of mineral hardness from the treated surfaces, facilitating rapid drying.
- HOW TO USE: use in single-dose sachets ready for use, to be inserted into the cooking chamber of the oven, selecting the available washing programs. It is possible to use it in combination with the CAL PEARLS product for the descaling cycle.
- COMPATIBILITY OF THE PREPARATION: the preparation is made and tested for maximum compatibility with the construction materials in Angelo Po ovens; do not use for purposes other than those intended. Do not replace the product with other detergents.
- PRECAUTION FOR HANDLING AND STORAGE: store in the original packaging away from extreme temperatures and direct light. The storage temperature can affect the fluidity of the formulation. Consult the safety data sheet.
- USABLE: on ACT.O ovens (AT... models).
- The package includes: 50 sachets of 60 g.
- The indications given have been established for general use conditions. In conditions that deviate from the norm, for example due to the particular hardness of the water, the working method or cleaning problems, we suggest consulting our technical service.
- The chemical-physical data indicated represent typical characteristics of the product deriving from the analyzes to which it is subjected. These values ??do not constitute specifications.
