

## HOPPER TWO-SIDED WORKTOP

AISI 304 stainless steel top 54 mm h with satin finish 12/10 mm thickness. Sound deadening waterproof panel underneath. AISI 304 stainless steel free-standing structure with satin finish, with hopper hinged in the lower part, and movable. Height-adjustable stainless steel feet.

*Working side*

Two working sides

### Functional features

- Sturdiness of the worktop due to the particular construction and use of AISI 304 stainless steel sheet, thickness 12/10 mm.
- Hygiene ensured by the materials used and by the totally "closed" structure of the worktop.
- Ergonomics, offering a standard height of 90 cm from the floor.
- Height-adjustable stainless steel feet for leveling on the floor, equipped with a thermosetting plastic sole.

### Constructional features

- Worktop height 54 mm made of 1.2 mm thick AISI 304 stainless steel with sounddeadening water-proof panel.
- Self-supporting cabinet made entirely on sides, back, bottom and door in satin-finished and cold-bent AISI 304 stainless steel.
- Drop-down hopper made of AISI 304 stainless steel, removable.
- Hexagonal feet in stainless steel with plastic sole, adjustable for leveling on the floor h = 150 (max h = 180) mm.

### Safety equipment and approvals

- The product conforms to EC 1935/2004 Regulation and 21/03/1973 Rulemaking (Materials and Objects that are destined to come into Contact with Aliments).

### Optional

- Swivelling wheels with brake.
