

ICE MAKER - GRANULAR KG 70/24H

Front, top and sides in stainless steel, inside in antimicrobial thermoformed plastic. Remaining water content 25% Container capacity: 25 kg Refrigerant type: R134a. Air cooled. Direct transmission and continuous production.

Cooling	Air	Ice typology	Granular
Load (Kg)	25	Refrigerant charge, kg	0,27
Refrigerant gas	R134		

Constructional features

- Continous production of ice through direct drive screw.
- All ice cube maker models are protected against bacteria using AGION, a compound containing powdered silver. All plastics in contact with water contain AGION, sharply reducing bacteria and algae formation.
- The ice maker is built in accordance with the WRAS regulations.

Technical Data

Working voltage	230V 1N~ / 50Hz	Net Weight	50 kg
Gross Weight	60 kg	Electric Power	0,34 kW
Dimensions	52,9x62,9x88 cm	Packing	70x80x100 cm
